

Series 5000 (Biometric Terminal) Model t6-5010

Biometrics is ideal for companies where 'buddy-punching' is a major problem. capacitance reader technology eliminates employees 'clocking' each other in. For increased security the fingerprint reader can be used in conjunction with a keypad or proximity entry making this model one of the most secure on the market.

Compatible with the following software:

**timeware®
Small Business Edition**

**timeware®
Professional Edition**

Capacity

1000 employee capacity
3000 archive record capacity
Unlimited Job/operation support (depends on frequency of data poll)

Communication

Flexitime offers intelligent networking: Employees using the system may check their real-time balances at all designated terminals on the WAN/LAN Network connection: RJ45 (10BaseT)
Serial connection: RS232 (9600bps)
